PROFILE SUMMARY

Master of Computer Applications **(MCA'26)** graduate with an **8.28 CGPA** and practical experience as a **Full Stack Development Intern at CodeAlpha**. Proven track record of architecting scalable end-to-end web applications across Python (Django) and JavaScript (Node.js/Express.js) ecosystems. Proficient in designing RESTful APIs, implementing relational and NoSQL database schemas, user authentication, and responsive mobile-first interfaces. Eager to contribute technical expertise, adaptability, and high-quality software engineering in an entry-level Software Developer or Full Stack Engineer role.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, TypeScript, HTML5, CSS3

Frameworks & Backend: Django, Node.js, Express.js, React.js, Flask, RESTful APIs

Databases: MySQL, MongoDB, SQLite, Oracle Database, Microsoft SQL Server

Developer Tools: Git, GitHub, Visual Studio Code, Jupyter Notebook, GitHub Actions, Vercel

Practices & Concepts: Full-Stack Architecture, MVC/MVT, CRUD Operations, Responsive Web Design

EXPERIENCE

CodeAlpha — **Completion Certificate** | **Recommendation** | Sep 2026
Full Stack Development Intern (Virtual) — *Remote, India*

- Developed, tested, and deployed scalable **full-stack web applications** utilizing modern frontend, backend, and database architectures.
- Designed and integrated **RESTful APIs** to handle seamless client-server communication, state management, and persistent **CRUD operations**.
- Implemented secure **user authentication, session management**, and database schemas for reliable data handling and access control.
- Engineered mobile-first, cross-browser compatible user interfaces applying **responsive web design** principles and clean UI/UX standards.
- Managed collaborative codebases using **Git and GitHub** with structured version control, modular code architecture, and continuous deployment workflows.
- Awarded a verified **Certificate of Completion** and an official **Letter of Recommendation** for technical and project excellence.

PROJECTS

Full-Stack E-Commerce Web Application — *Python, Django, SQLite, HTML5, CSS3, JavaScript, Vercel* GitHub

- Built an end-to-end e-commerce platform using **Django** and **SQLite**, featuring user authentication, product catalog browsing, and an order checkout pipeline.
- Implemented persistent shopping cart state management, automated database population scripts, and dynamic product filtering via Django ORM.
- Designed responsive UI templates with clean navigation, interactive cart drawers, and configured serverless deployment on Vercel.

Social Media Platform Web Application — *Node.js, Express.js, JavaScript, RESTful API, HTML5, CSS3* GitHub

- Engineered a full-stack social networking application with a **Node.js and Express.js** backend handling REST API routing and data models.
- Developed core social features including user profile creation, real-time dynamic post feeds, comment threads, and a relational like/follow system.
- Created clean client-server communication with asynchronous JavaScript, structured database queries, and a modern responsive interface.

EDUCATION

Master of Computer Applications (MCA) — Sep 2024 – Jun 2026
Biju Pattnaik University of Technology (BPUT) — 8.28 CGPA — Rourkela, Odisha, India

Bachelor of Education (B.Ed.) — Sep 2022 – Aug 2024
Dr. B.R. Ambedkar University — 8.3 CGPA — Etcherla, Andhra Pradesh, India

Bachelor of Science (B.Sc.) – Physics & Physical Science — Jul 2019 – Jul 2022
Berhampur University — 9.4 CGPA (Topper) — Berhampur, Odisha, India

CERTIFICATIONS

- **Deloitte Australia** – Data Analytics Simulation
- Tata – GenAI Powered Data Analytics
- Commonwealth Bank – Cybersecurity
- HackerRank SQL (Basic) Certificate
- HackerRank SQL (Intermediate) Certificate
- HackerRank Python (Basic) Certificate
