## PROFILE SUMMARY

Master of Computer Applications **(MCA'26)** graduate with an **8.28 CGPA** and a strong quantitative foundation as a College Physics Topper (9.4 CGPA). Practical experience as a **Data Analytics Intern at CodeAlpha**, proficient in Exploratory Data Analysis (EDA), data visualisation, automated web scraping, data cleaning, statistical modeling, and database querying using Python and SQL. Skilled in transforming complex datasets into actionable business intelligence through interactive visualizations and executive reports. Eager to contribute analytical rigor and data storytelling in an entry-level Data Analyst or Business Intelligence role.

## TECHNICAL SKILLS

**Languages & Analytics:** Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn), SQL, HTML5, CSS3

**Data Analysis & BI:** Data Visualisation, Exploratory Data Analysis (EDA), Web Scraping (BeautifulSoup), Data Cleaning, Tableau, Power BI, MS Excel

**Databases & Querying:** MySQL, PostgreSQL, MongoDB, Oracle Database, Microsoft SQL Server

**Tools & Environment:** Jupyter Notebook, Git, GitHub, Visual Studio Code, Vercel, Google Colab

## EXPERIENCE

**CodeAlpha** — **Completion Certificate** | **Recommendation** | Sep 2026
*Data Analytics Intern (Virtual)* — *Remote, India*

- Conducted comprehensive **Exploratory Data Analysis (EDA)** and statistical modeling using Python (Pandas, NumPy) to evaluate business metrics, revenue distributions, and promotional performance.
- Engineered automated **web scraping pipelines** using **BeautifulSoup** to parse HTML DOM trees, handle pagination, and compile custom structured CSV datasets from dynamic web sources.
- Built informative **data visualizations and dashboards** using **Matplotlib and Seaborn**, authoring data-driven executive reports that translate raw metrics into strategic business insights.
- Queried relational databases via advanced **SQL** (multi-table joins, subqueries, aggregations) to ensure clean data pipelines for analysis and visualization workflows.
- Awarded a verified **Certificate of Completion** and an official **Letter of Recommendation** for analytical excellence across all milestones.

## PROJECTS

**E-Commerce Exploratory Data Analysis (EDA)** — *Python, Pandas, Matplotlib, Seaborn, Excel* — GitHub

- Analyzed real-world e-commerce sales records, uncovering monthly revenue trends, product category distributions, and promotional discounts impact on net sales volume.
- Conducted statistical outlier detection and generated automated visual reports communicating actionable business growth recommendations.

**Superstore Sales Data Visualization & Reporting** — *Python, Pandas, Seaborn, Matplotlib* — GitHub

- Performed deep-dive sales and profitability analysis across customer segments, geographic regions, and merchandise subcategories.
- Authored a structured business analytics report with custom visualizations highlighting loss-making categories and high-margin inventory drivers.

**Multi-Source Web Scraping Data Pipeline** — *Python, BeautifulSoup, Requests, CSV* — GitHub

- Developed modular web scrapers for extracting structured data from global sources including World Bank economic news, NASA archives, and e-commerce catalogs.
- Handled complex HTML navigation, user-agent headers, and automated data cleaning to export publication-ready tabular datasets.

## EDUCATION

**Master of Computer Applications (MCA)** — Sep 2024 – Jun 2026
*Biju Pattnaik University of Technology (BPUT) — 8.28 CGPA — Rourkela, Odisha, India*

**Bachelor of Education (B.Ed.)** — Sep 2022 – Aug 2024
*Dr. B.R. Ambedkar University — 8.3 CGPA — Etcherla, Andhra Pradesh, India*

**Bachelor of Science (B.Sc.) – Physics & Physical Science** — Jul 2019 – Jul 2022
*Berhampur University — 9.4 CGPA (Topper) — Berhampur, Odisha, India*

## CERTIFICATIONS

- **Deloitte Australia** – Data Analytics Simulation
- Tata – GenAI Powered Data Analytics
- Commonwealth Bank – Cybersecurity
- HackerRank SQL (Basic) Certificate
- HackerRank SQL (Intermediate) Certificate
- HackerRank Python (Basic) Certificate
